## Fireteam's U.S. Wasteland Zones

This map shows a fractured United States following the nuclear and systemic collapse that triggers *Ashfall Protocol*. Each zone is categorized based on threat level, tactical priority, and signal activity — which Fireteam 71 was either deployed to, or marked for future investigation.

# Zone Alpha – The Black Silence

• Color: Deep Red / Crimson

• Region: Pacific Coast (CA, OR, WA)

## • Description:

Total electromagnetic silence. Entire cities are gone — or worse, responding with ghost signals. Anchorage Spire's collapse and Echo-9 bunker are located here.

Status: Redacted

• Known Threats: Signal mimics, AI residue storms, collapsed relays

## Zone Beta – Static Frontier

Color: Burnt Orange

Region: Southwest (NV, AZ, NM)

### • Description:

Signal bleed zones — unpredictable EM bursts, non-functional tech, unpredictable radiation storms. Fireteam 71 encountered several untraceable pings here.

Status: Recon Discontinued

• Known Threats: Terrain collapse, blackout drones, rogue constructs

# 🖊 Zone Gamma – Civilian Fade

• Color: Dust Yellow

• **Region:** Central Plains (CO, KS, OK, TX Panhandle)

#### • Description:

Civilian populations disappeared with no signs of resistance or evacuation. Appears untouched — until approached. Used as psychological warfare simulation zones.

Status: Avoid

Known Threats: Inverted reality pockets, mental fog fields

## Zone Delta – Reclamation Grid

• Color: Pale Green

• Region: Upper Midwest (MN, WI, MI)

#### • Description:

Attempts were made to reclaim these zones before full collapse. Remaining infrastructure is salvageable. Some Fireteam outposts remain buried or dormant.

Status: Monitored

• Known Threats: Sub-level network corruption, Dominion tech traces

# Zone Epsilon – Residual Bastion

Color: Muted Blue

• **Region:** Northeast U.S. (PA, NY, DC corridor)

## • Description:

Last known communication hubs. Static-free, but high Dominion presence toward the end of the collapse. Believed to be the last broadcasting sector.

Status: Shadow Occupied

• Known Threats: Dominion sleeper units, misdirected beacons, black towers

# Legend Key

Symbol / Color	Zone Name	Description
Deep Red	Zone Alpha	Complete blackout; epicenter zone
Burnt Orange	Zone Beta	EM-unstable; signal ghost zones
Yellow	Zone Gamma	Civilian no-return; psychological risk
Green	Zone Delta	Attempted reclamation areas
Blue	Zone Epsilon	Final strongholds, compromised late
